D. OFFICE OF GOVERNMENT RELATION'S REPORT:
(Reported by Dr. Monai Lowe)

DC Health Fiscal Year 2027 Budget Oversight

School Health Certificate Modernization Amendment Act of 2026

- On July 6th, Councilmember Henderson introduced the *School Health Certificate Modernization Amendment Act of 2026* ([B26-0725](#)).
 - The legislation would require the Department of Health to create a digital system for receiving certificates of health and oral health for students attending public and private schools from health care providers. It would prohibit health care providers from charging for a certificate of health or certificate of oral health. It would also require the Department of Health to create a tiered fee structure for health professional licensing and registration.
- The bill has been referred to the Committee on Health with comments from the Committee of the Whole, and a hearing was held on September 24th.

Student Health Care Amendment Act of 2026

- On May 11th, at the request of the Mayor, Chairman Mendelson introduced the *Student Health Care Amendment Act of 2026* ([B26-0688](#)).
 - The legislation establishes that the Certificate of Health and Oral Health Assessment are standardized documents that incorporate lead poisoning testing that parents and legal guardians are required to submit on an annual basis. It also codifies DC Health's responsibility for undesignated epinephrine in schools and defers to the agency's undesignated emergency medications action plan. The bill also designates the Maryland Poison Center of the University of Maryland School of Pharmacy as the District's poison control center. Lastly, the bill repeals provisions that govern the Perinatal and Infant Health Advisory Committee.
- The bill has been jointly referred to the Committee on Health and the Committee of the Whole, and a hearing was held on September 24th.

Vaccine Administration Protection Amendment Act of 2026

- On February 26th, at the request of the Mayor, Chairman Mendelson introduced the *Vaccine Administration Protection Amendment Act of 2026* ([B26-0606](#)).
 - This legislation protects District healthcare providers seeking to provide access to safe and effective vaccines to

	District residents, and the organizations that employ them. If enacted, the proposed legislation would amend D.C. Official Code § 7-401 to ensure healthcare providers are not held liable for any injury caused by the prescribing, dispensing, ordering, furnishing, or administering of eligible vaccines or other immunizing agents. These include ones required by law or recommended by leading medical and public health entities. ▪ The bill has been referred to the Committee on Health and a hearing was held on September 24th.
