particular matter or proceeding not be public,” the Task Force moved into a closed session because members specifically discussed the details of major crashes, which contained personally identifiable information and other sensitive material. The closed session involved review of review video and photographic records memorializing vehicular, pedestrian and other modal collisions and related fatalities, which may reveal images of such a personal and graphic nature that revelation in an open meeting would violate the personal privacy interests of the individuals involved. Kristin Calkins motioned to move into a closed session, Eileen McCarthy seconded the motion, and the motion was approved unanimously.

During the closed session, the following crashes were reviewed:

D18-2 from December 24, 2017 in which the passenger of a motor vehicle was fatally injured in a collision with a fixed-object

D18-27 from September 24, 2018 in which a person on a bicycle was fatally injured in a collision with a motor-vehicle operator
