The Task Force agreed to proceed to crash review, and to enter a closed session to do so. Pursuant to D.C. Official Code § 2-575(b)(1), which allows for closure of a meeting or portion of a meeting when a “law or court order requires that a particular matter or proceeding not be public,” the Task Force moved into a closed session because members specifically discussed the details of major crashes, which contained personally identifiable information and other sensitive material. The closed session involved review of review video and photographic records memorializing vehicular, pedestrian and other modal collisions and related fatalities, which may reveal images of such a personal and graphic nature that revelation in an open meeting would violate the personal privacy interests of the individuals involved.

Department of Transportation

During the closed session, the following crashes were reviewed:

S20-20 from November 25, 2020 in which the operator of a motor vehicle was severely injured in a collision with a fixed object.

D20-37 from December 20, 2020 in which the operator of a motor vehicle was fatally injured in a collision with a fixed object.

Other topics

The Task Force discussed improving the process of reviewing crashes by agreeing upon the crashes to be reviewed several weeks ahead of each meeting to allow for compiling standard information about each crash. The group discussed crashes from prior years that should be available for review, and possibly reviewing crashes that have similar circumstances each meeting. The group discussed ways to efficiently review severe injury crashes so that more time can be dedicated to fatal crashes.
